PRESS RELEASE

Redfern Integrated Optics, Inc. Adds Delta Photonics as Distributor in Canada

Santa Clara, Calif. – June 24, 2010 – Redfern Integrated Optics Inc. (RIO), the leading supplier of low noise external cavity lasers and subsystems for fiber optic sensing, Doppler LIDAR, RF photonics and high-resolution metrology applications, today announced the expansion of its North American distribution network in Canada with Delta Photonics Inc.

“Due to the rapid market acceptance of RIO’s game-changing PLANEX™ and ORION™ single frequency lasers, we decided it is time to augment our sales and customer support presence in Canada”, stated Tony Pisano, Director of Sales for RIO. “The Delta team is very technically competent, customer-centric and application focused, and has a proven record of ensuring customer satisfaction. We look forward to better support our Canadian customers by working with such an accomplished sales partner.”

Rich Williams, CEO for Delta Photonics Inc., commented, “We look forward to working with RIO in the Canadian marketplace for ultra narrow line width laser solutions. We anticipate significant demand for this leading edge technology. This product line is very complementary with our existing lines and customer base. We are expanding our workforce at Delta. Therefore we view our new agreement with RIO as a strong positive for Delta, RIO and the Canadian Photonics Community.”

About RIO Inc.

RIO develops and manufactures optical sources and subsystems based on its proprietary planar external cavity laser technology (PLANEX(TM)), which delivers unique price-performance advantages in multiple energy, security, infrastructure, metrology, and other markets. RIO's product lines include 1550nm single frequency narrow linewidth lasers and modules with very low noise, unparalleled wavelength stability, low cost, small size, low power dissipation, and Telecom grade lifetime reliability. About Delta Photonics Inc.

Delta Photonics is a leading distributor of photonics devices and instrumentation in Canada including spectroscopy systems, EMCCD, ICCD, CCD cameras, laser measurement instrumentation and light sources. The company has sales offices in Ontario and BC serving customers in the photonics industry across Canada. For information, please visit: www.deltaphotonics.com
